Straight HD Lux Baffles deliver integrated acoustic and LED performance in a linear baffle system, suited to walls or ceilings and available in 2 spacing configurations for precision acoustic control.

- ✓ Acoustic
- ✓ Bleach Cleanable
- ✓ Easy Clean
- ✓ Easy Install

Description

HD Straight Lux is a linear acoustic system designed for architectural continuity across both wall and ceiling applications. Defined by its 953mm (37.5") x 2743mm (108") format and 75mm (3") baffle depth, it extends a consistent material language across vertical and horizontal surfaces, unifying feature walls and acoustic ceiling fields within a single specification approach and creating a seamless transition between wall treatments and ceiling planes.

The linear form of HD Straight Lux is particularly effective in corridors, hospitality environments, and long-span commercial interiors where directionality and repetition define spatial rhythm. It offers two distinct spacing configurations: a 24mm (1") profile that forms a dense, monolithic acoustic plane for increased surface absorption, and a 48mm (2") spacing that opens the composition, allowing light and air to move through while softening overall visual weight.

Designed for high-specification environments, HD Straight Lux delivers CRI of 90+ colour rendering and is UL/cUL certified. Supplied with Class 2 dimmable drivers and cross-runner hardware, it is specification-ready for commercial installation. The system supports direct T-grid mounting, wall applications with expressed gap detailing, and seamless baffle-to-baffle connections via butt-join or dovetail formats.

Finishes span the full Zintra palette, including Textile Prints and Premium Materials, allowing Straight Lux to integrate seamlessly into broader interior specifications and operate as an architectural layer rather than a standalone acoustic element.

System Includes:

HD Straight Baffle Lux, HD Straight Baffle, Crossrunner, ASKs 5' (1.5m) & Cord Length 20' (6m)

**Dimmable driver is not included.

Class 2 Driver Not included.

Available separately 96w, 2 x 96w or 3 x 96w

How to Specify

1. Size Space
2. Baffle System Design
3. Installation Hardware
4. Connection Method
5. Colour or Print

BAFFLE SYSTEMS HD STRAIGHT LUX

Composition	Zintra Acoustic Panel - 95% Polyester + 5% PLA 12mm (1/2") -Density 2.4 kg /m² 0.5 lb/ft
Sustainability	Zintra is made from 100% recyclable materials. • 60% post-consumer recycled content from PET bottles. • 35% pre-consumer recycled content from PET chips • 5% polylactic acid (PLA)
Dimensions	37.5" (953mm) W x 108" (2745mm) L x 3" (75mm) H
Fire Rating	ASTM-E84 – Class A classification AS ISO 9705 – 2003 – Group 1 classification EN-13501 – B-s2-d0 classification
Acoustic Rating	Up to 0.70
Supplied As	System Includes: HD Straight Baffle Lux, HD Straight Baffle, Crossrunner, ASKs 5' (1.5m) & Cord Length 20' (6m) **Dimmable driver is not included. Class 2 Driver Not included. Available separately 96w, 2 x 96w or 3 x 96w
Assembly & Delivery	Ships Flat packed. Lighting component fully assembled to the Baffle - requires an electrician for installation. Go to the Technical Documents and download the Installation Guide for more details.
Suggested Installation	Go to Technical Documents and download the Installation Guide for more details.

Care Instructions	Vacuum to remove dust. Dab Zintra with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry. Always test in an inconspicuous area first and if you don't see the expected results, contact us.
Customisable	The Zintra Acoustic Solutions range is customisable to your project. Please get in touch with your local contact for details.
Additional Comments	NRC Up to 0.70 Number of Lux Baffles: 2 LED Power (W): 1520mm per 300mm (5' per foot) Total: 90W Luminous Flux (lm); 8666 Frequency (Hz): 50/60 Power Factor (lm/W): 100 Beams of Light Average: 145 Input Voltage; 24v CRI: 90+ Colour Temperature 3500K USA/AUST, 2700K E
