Acoustics » Acoustic Ceiling Features

Surdo is a large format, 865mm (34”) acoustic pendant delivering high-performance sound absorption across expansive interiors, reducing reverberation and bringing balance, clarity and architectural presence without visual weight.

- ✓ Acoustic
- ✓ Bleach Cleanable
- ✓ Easy Clean
- ✓ Easy Install

Description

Surdo is designed for scale, delivering high-performance acoustic control across expansive interiors where sound builds quickly and lingers. In large open environments, it provides the density needed to manage reverberation at the source, supporting clearer communication and reducing the fatigue caused by constant ambient noise.

Its broad PET drum form and Helmholtz resonator-inspired construction target the frequencies most responsible for speech interference, improving clarity across workplaces, education settings, hospitality venues, and high-volume communal spaces. The result is a ceiling solution that performs quietly but decisively, particularly where lighting is handled separately or where acoustic performance is the primary brief.

Beyond its technical role, Surdo introduces a strong architectural presence overhead. Suspended within the ceiling plane, it helps organise large volumes, creating rhythm, balance, and spatial definition without visual heaviness. The form reads as intentional design rather than applied treatment, contributing to a more resolved and coherent interior language.

Specified individually or in repeated formations, Surdo becomes a scalable acoustic system that integrates seamlessly with the wider Zintra Acoustic Lighting collection, supporting a consistent and considered ceiling strategy across complex projects.

System includes:

Pendant, Zintra Disc, ASKs 1.5m (5') & Cover Plate

How to Specify

- 1.Space Size
2. Pendant Size
3. Installation Method
4. Colour or Print

Composition

Zintra Acoustic Panel - 95% Polyester + 5% PLA

12mm (1/2") -Density 2.4 kg /m² 0.5 lb/ft

Sustainability	Zintra is made from 100% recyclable materials. • 60% post-consumer recycled content from PET bottles. • 35% pre-consumer recycled content from PET chips • 5% polylactic acid (PLA)
Dimensions	34" (865mm) d x 8.2" (208mm) h
Fire Rating	ASTM-E84 – Class A classification AS ISO 9705 – 2003 – Group 1 classification EN-13501 – B-s2-d0 classification
Acoustic Rating	NRC up to 1.20
Supplied As	Pendant, Zintra Disc, ASKs 5' & Cover Plate
Assembly & Delivery	Ships assembled, ready for installation. Go to the Technical Documents and download the Installation Guide for more details.
Suggested Installation	Go to Technical Documents and download the Installation Guide for more details.
Care Instructions	Vacuum to remove dust. Dab Zintra with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry. Always test in an inconspicuous area first and if you don't see the expected results, contact us.
Customisable	The Zintra Acoustic Solutions range is customisable to your project. Please get in touch with your local contact for details.
Additional Comments	NRC up to 1.20 Zintra disc 30" (753mm) d
