BOX BAFFLES UNIFORM SLIM

Acoustic Baffles

A sleek, modern ceiling solution balancing coverage, sound control, and design. The shallowest Box Baffle at 3.5" (90mm), Uniform Slim creates maximum coverage with 15 baffles per system.

Description	<p>Zintra Box Baffles Systems are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. Suspended in perfectly spaced rows, the box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, these systems are easy to assemble, easy to install, and a visually striking alternative to traditional mineral fibre ceilings.</p> <p>Uniform Slim Box Baffle Systems</p> <p>Has the shallowest depth at 3.5" (90mm) and 15 baffles per system. Its slim profile delivers maximum coverage with a light, elegant ceiling line that controls sound without overwhelming the space.</p> <p>Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d, Slim is ideal for projects that call for subtle impact with strong acoustic performance.</p> <p>Design Options</p> <p>Choose from uniform or mixed Box Baffle Systems to suit your design vision. Uniform Slim, Wide, Span, and Grand offer clean, linear profiles, while Freeform layers Slim, Wide, and Span for subtle variation. Fusion combines all four sizes for bold, architectural statements.</p> <p>With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.</p>
