BOX BAFFLES UNIFORM GRAND

Acoustics » Acoustic Baffles

Uniform Grand features 9 baffles at 5.5" (140mm), creating bold ceiling lines. Ideal for expansive spaces needing scale, presence, and acoustic control.

Description

Zintra Box Baffles Systems are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. Suspended in perfectly spaced rows, the box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, these systems are easy to assemble, easy to install, and a visually striking alternative to traditional mineral fibre ceilings.

Uniform Grand Box Baffle Systems

With 9 baffles per system and at 5.5" (140mm), Uniform Grand delivers bold lines and a substantial ceiling presence. Perfect for expansive interiors, it offers strong acoustic performance with fewer baffles, creating scale and impact with ease.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d, Slim is ideal for projects that call for subtle impact with strong acoustic performance.

Design Options

Choose from uniform or mixed Box Baffle Systems to suit your design vision. Uniform Slim, Wide, Span, and Grand offer clean, linear profiles, while Freeform layers Slim, Wide, and Span for subtle variation. Fusion combines all four sizes for bold, architectural statements.

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
