BOX BAFFLES SLIM

Box Baffles Slim Set at 3.5" (90mm), 10 or 5 baffles per set. Offering a sleek, lightweight ceiling line. Creative flexibility in design and installation.

Description

Zintra Box Baffle Sets are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. The box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, they are a visually striking alternative to traditional mineral fibre ceilings.

With Box Baffle Sets, you get Zintra's acoustic performance and design impact, minus the hardware. This opens up the freedom to experiment, reimagine, and tailor ceiling layouts that reflect your unique style.

Box Baffles Slim Set features the shallowest depth at 3.5" (90mm), yet delivers maximum visual rhythm with a light, elegant ceiling line that enhances acoustic performance without overwhelming the space. Ideal for projects requiring subtle impact with high coverage, Slim offers a clean, modern solution that balances scale, sound control, and design efficiency.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d. Each set comes with either 10 or 5 baffles (depending on size)

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
